## Appreciation for many messages about HTTR

We received many warm messages from friends active in the organizations listed below which celebrated obtaining the permission by the Nuclear Regulation Authority (NRA) of changes to reactor installation of the HTTR (High Temperature Engineering Test Reactor) in conformity to the New Regulatory Requirements.

### International Organization and Participating Member (20)

OECD/NEA

GIF

IAEA

### Foreign Organization (12)

INET, China

Ministry of Science and Higher Education, NCBJ: Poland

NNL, ONR: UK

DOE, INL, NRC: US

(Organization (arranged in alphabetical order for its country), ( ): number of messages)

We would like to address our gratitude for those sending encouraging messages. Putting first priority to the safety, we will make every effort to restart HTTR in the earliest manner.
