

Panel Discussion 2:

Challenges for Human Resource Development

Moderator: Ms. Naoko Noro (ISCN/JAEA)

Panelists

Mr. Sunil Chirayath (Texas A&M University)

Mr. Man Sung Yim (KAIST)

Ms. Kathryn Glynn (DOE/NNSA)

Mr. Phongpaeth Pengvanich (Chulalongkorn University)

Panel Discussion 2:

Challenges for Human Resource Development

Discussion Point 1

- Are there any national strategy or frameworks for human resource development (HRD) in nuclear security?
 - National plan? Does your country have NSSC (nuclear security support centre)/COE, or any leading agencies in this field?

Panel Discussion 2:

Challenges for Human Resource Development

Discussion Point 2

- Are there any stakeholders left out from nuclear security HRD program?
 - Who is your HRD program target? Regulator, operator, response forces, frontline officers, scientists, students, etc.
 - Even within the operator, various sections need to learn about nuclear security, not only security division – any good practices?
 - Nuclear security at a major public event involves wider stakeholders than traditional nuclear security (physical protection of material and facility). Do you reach out to all the stakeholders?

Panel Discussion 2:

Challenges for Human Resource Development

Discussion Point 3

- What are the good practices of industry-COE-government-academia collaboration on HRD activities?

Panel Discussion 2:

Challenges for Human Resource Development

Discussion Point 4

- Are there universal challenges for promoting such activities? If so, will international/regional cooperation resolve them?
- What do you expect for ISCN?
