

KAMIDE, Hideki

Deputy Director General for Sector of Fast Reactor  
and Advanced Reactor Research and Development

Japan Atomic Energy Agency (JAEA)

Chair of GIF

**Hideki Kamide** has worked in the field of thermal hydraulics of sodium cooled fast reactor (SFR), especially experimental studies on natural circulation, high cycle thermal fatigue, and safety related issues, for 30 years. His current concerns are Advanced Reactor development and also international collaboration on this issue. He also serves 3 years as the Chair of Generation IV International Forum (GIF) Policy Group since 2019.

Business and academic Career:

- 1985, Apr.: Joining Power Reactor and Nuclear Fuel Development Corporation (PNC, former organization of JAEA)
- 2010, Nov.: Ph.D. of Nuclear Engineering, Tokyo Institute of Technology, Japan
- 2014, Oct.: Director General of Fast Reactor Research and Development Center of Japan Atomic Energy Agency (JAEA)
- 2015, April: Chair of Thermal Hydraulics Division of Atomic Energy Society of Japan (~ March, 2016)
- 2018, Apr.; Current position (Deputy Director General of Sector of Fast Reactor and Advanced Reactor Research and Development, JAEA)
- 2020, Mar.: Fellow of Atomic Energy Society of Japan
- 2020, Mar.: Assistant Editor, Journal of Nuclear Engineering and Radiation Science (ASME)
