

State of the Shared Facilities (as of May 6, 2021)

Area	Facility	State of the facility	Prospects
Tokai	JRR-3	<p>JAEA acquired the nuclear reactor installation/alteration permission on Nov. 7, 2018 after the application for a nuclear reactor installation/alteration permission to fit with the new regulatory requirements was submitted to the Nuclear Regulation Authority (NRA).</p> <p>Subsequently, JAEA carried out the legal inspection and passed the inspection on Feb. 26, 2021 after completing the seismic reinforcement work.</p> <p>JAEA passed the final legal inspection and has restarted JRR-3 operation. The tentative operation schedule is published on JRR-3 Users Office Website.</p> <p>JRR-3 Users Office Website: https://jrr3uo.jaea.go.jp/jrr3uoe/index.htm</p>	<p>In-service operation open to the public is scheduled to begin at the end of June, 2021 after completion of the adjustment operation which is to start in March, 2021.</p>

Facilities not mentioned above are offered for use the same as before, except for Joyo, where a periodic inspection is being conducted on its reactor facility, and only the post irradiation examination facility is currently available.

*In regard to "JRR-4", based on the "Basic Direction of the Reform of Japan Atomic Energy Agency" which was drawn up by the panel of MEXT on August 8, 2013, JAEA formulated the "Reform Plan of Japan Atomic Energy Agency" and in it JRR-4 was designated as a facility for which a decommissioning plan should be developed. The decommissioning plan was submitted to the NRA on December 25, 2015, and accordingly JRR-4 was removed from the list of the JAEA's shared facilities on January 13, 2016 and will not be offered for use from then on.
